

A BIG SALE

Half a Million Deal in Deep Creek.

YOUNG'S BIG BARGAIN

He Secures a Half Interest in Twenty-Five Claims

LOCATED IN THE EAGLE DISTRICT

Samples of Ore From These Mines Go as High as Fifteen Thousand Ounces in Silver.

The first large sale of mining property in the Deep Creek country was made yesterday, and A. D. Young was the lucky purchaser.

The deal covers twenty-five mines and prospects, six mill sites and twelve new locations, all in the Eagle district—formerly known as Kern district—in White Pine county, Nev., just across the Utah line.

Before Bacon and Wither Jones turned the town upside down by making known their scheme of a railroad to Deep Creek, A. D. Young surmised as much. While others were "scouting the idea" of anything phenomenal turning up in that much-deserted country, he was peering away across the desert and penetrating the hills.

It was no hap-hazard adventure with him, as he went in company with Aaron Farr, Jr., and an assayer to thoroughly test the ore and find out to a definite certainty what there was in it. He went as the representative of a syndicate, but owing to the tightness of the money market the backers of the scheme failed to come to time, and A. D. Young proceeded to take care of the valuable mines and prospects himself.

Mr. Young left this city early in October of last year and spent two months in visiting Clifton, Dutch Mountains, Silver Canon, Silver Mountain and the Eagle district, the latter formerly known as the Kern district. His researches were most carefully made, as he, on his return, was to submit the results to the syndicate, which he represented. He was greatly impressed with the Eagle district, and to thoroughly verify every part of the ground he had his assayer, James Miles, make careful assays of the ore taken from all the mines and prospects in this district.

The following assays made in this and other districts, and Mr. Young's estimate that they were in no case taken from picked ore, but as far as he could select the ore was a fair average:

"We had picked samples," said Mr. Young, "that ran as high as 15,000 ounces, but these were simple pieces of horn silver."

The purchase of Mr. Young includes a half interest in a group of mines, claims, prospects and locations in the Eagle district that were being sold by John Tipsett, recorder of the district. Mr. Tipsett went to that country eight years ago, and for seven years of that time kept his family on the silver from the mines. The following is a list of the mines and claims covered by the deal:
